EXAMINER'S AMENDMENT

- An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
- The application has been amended as follows:
- Claim 4, line 1, please change, "an digital information", to read, "a digital information".
- Claim 13, line 1, please change, "an digital information", to read, "a digital information".

REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed towards a data compression method and apparatus for data compressing a digital information signal. The closest prior art, Bruekers et al. (USPN 6,269,338 B1), shows a similar system, in which, an apparatus for data compressing an analog audio signal includes an input terminal for receiving the audio signal and a 1-bit A/D converter for A/D converting the audio signal to a digital bitstream signal, the apparatus has a lossless coder for lossless data compression of the bitstream signal to a data compressed bitstream signal, and has an output terminal for supplying the data compressed bitstream signal. However, Bruekers et al. fail to address: "for supplying the data compressed digital information signal characterized in that the probability determining is adapted to determine a new value of a probability signal from the digital information signal and at least one previously determined value of said probability signal". This distinct feature has been added to each independent claim and renders them allowable.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
